“ I had only known Robyn for a few months before her passing, but her impact on my life was huge and continues to resonate grandly. I connected with her after coming across one of her YouTube videos about her book. I was mesmerized and just had a question. She responded. A few weeks later, she invited me to her private Zoom group to deepen my knowledge of the book's content. This was one of the best circles I had the honor to be a part of. Her book "The Heart Of 'I AM' The Point Of Divine Origin" has helped transform my life. I truly miss her and am beyond grateful for her. I wish her family much Love and Peace.
